

# SOLUTIONS TO SUPPORT YOU

MOS COMMITMENT TO MANUFACTURING

Count on us:

Focused on lean initiatives to help reduce expenses and growing your business; MOS can help you accomplish both. Count on us.

## We are there when you need us

Manufacturing has become highly competitive with overseas expansions, cost burdens, and competitive marketing strategies. Manufacturers are being forced to constantly stay ahead of the game. There is a strong need to penetrate new markets, gain market share, and have effective marketing. In addition, customers are looking for a valued product with good quality at a good price, forcing manufacturers to produce with lean initiatives and practices and communicate an effective message.

Manufacturers must focus on their core competencies to achieve their business goals. We can help you focus on those competencies by helping you cut costs and increase efficiencies with document management services and improve customer related processes and better manage risk. Through the MOS360° Assessment we are able to gain an understanding of the challenges your organization faces as a manufacturer. Together we combine insight and knowledge with the information that is uncovered to co-author proactive solutions to fit your needs. Identify areas pertaining to structural cost burdens and proactively manage risk; helping you achieve a sustainable and lasting infrastructure solutions that best meets your organization's needs.

Advertising research has shown adding color to black & white communications increases readership by up to 20%. In the past, manufacturers elected to not have color printing

with cost cutting initiatives. MOS can help you with scalable and cost-effective color printing options. Through our MOS360° Assessment we help you control costs in your current environment without sacrificing high-quality color options for in-house marketing.

## Solutions designed for you
