Michigan Office Solutions opens new location in Michigan State University Corporate Research Park

EAST LANSING, MI --Michigan Office Solutions (MOS), a wholly owned subsidiary of Xerox Co. and a provider of leading-edge office technology solutions for business, has become the newest corporate partner at University Corporate Research Park on the campus of Michigan State University (MSU).

The Grand Rapids, Mich.-based company moved an expanded Lansing staff into its new facility earlier this winter and expects the new spot will be able to accommodate significant growth. The company's location, at 3101 Technology Blvd. Suite J, is over 4,000 square feet and includes a technology showcase area that will allow business clients to see Xerox technology in action. The facility also includes a conference area and staff office space.

"MSU is happy to welcome MOS to the Research Park. The proximity of the Park to MSU makes it an ideal location to work with MSU students and recent graduates as a source of talent. We are excited to see new businesses and expansion at the park – providing more opportunity for students and partner companies alike," says Charley Hasemann, Assistant Vice President for Innovation and Economic Development at Michigan State University.

"We are thrilled to be a part of the University Corporate Research Park here at MSU," says Ralph Slider, President of MOS. "The new facility has room to showcase Xerox technology and innovation, and our tradition of hiring interns and alumni through MSU continues to grow. We look forward to being a part of this innovative and collaborative environment."

Slider says his firm has a long history of hiring MSU alumni, currently employing 11 MSU alumni. They include professionals in sales and marketing as well as advanced software engineering and information technology. Over the next few years, he says, MOS expects to expand its Lansing office by four to six employees annually.

"We were attracted by the fact that Michigan State University produces some of the best and brightest students around," Slider says. "They are directly aligned with our goal of helping businesses solve real problems with technology solutions."

The company is celebrating by holding an Open House/Ribbon Cutting Ceremony through the Lansing Chamber of Commerce on November 19, 2014 from 4:00pm – 6:00pm. The open house is open to the local business community in Lansing. Please register at www.mos-xerox.com/openhouse.
