## **Michigan Office Solutions celebrates 60 years in the Office Technology Business serving organizations in Michigan**

Grand Rapids, MI – January 30, 2017 – Firmly rooted in tradition with an eye on the future, Michigan Office Solutions (MOS) celebrates its 60<sup>th</sup> year in business. The vision remains steadfast to be recognized as the preferred provider of office technology solutions within Michigan. The mission is unwavering to be the most dependable office technology company within Michigan providing consistent, outstanding solutions and service backed by the industry leader, Xerox.

“I am greatly humbled and recognize that this milestone is directly connected to the loyalty of our customers, dedication of our employees, and support from the community. Our people truly make MOS great!” – Ralph Slider, President of MOS. Slider continued, “This is an exciting time for MOS. It’s not often you can be a part of a company with such long heritage and have a chance to celebrate 60 years in business.”

“Congratulations to Michigan Office Solutions (MOS) on achieving 60 years of success operating throughout the state of Michigan” said Mike Reed, former president and co-owner of MOS. Reed continued, “Over the last 6 decades, MOS has consistently exhibited the four pillars of a long term, thriving business. First, a strong leadership group that is dedicated, focused, caring and hands on. Second, a solid support team of sales, service and administrative members working towards the common goal of customer satisfaction and retention. Third, MOS has established strong vendor relations providing high quality, technically advanced products. Their ability to provide industry leading Xerox products to the customer while providing superior, local service and support is extraordinary. Finally, MOS continues to have a growing list of loyal and satisfied customers that are not taken for granted and are always treated with respect. Again, congratulations and continued success to MOS.”

Michigan Office Solutions started in 1957, under the name of Commercial Equipment Company (CEC) as a 3M Dealership founded by William S. Reed and his two partners. From 1989 to 2002, Bill's three sons (Mike, Russ and Tom) became owners and continued to grow and expand the business under CEC, W.S. Reed Company, and Reed Office Systems, Inc. CEC established a national presence in 2002 when the Reed family decided to sell the company to Global Imaging Systems. In 2007, the three companies came together and officially became Michigan Office Solutions, a wholly owned subsidiary of Xerox Corporation through Global Imaging Systems.

Today, Michigan Office Solutions is considered a leader in office technology equipment in Michigan with eight locations throughout the state. MOS has never veered far from its roots as members of the Reed family are still involved at all levels of the business from individual contributors to leadership positions. The best of both worlds; the strength of Xerox with the power and agility of local service and support. Xerox represents more than just copiers and printers; Xerox sits at the intersection of the analog and the digital. In this era of transition, Xerox and MOS are in a unique position to influence the way the world communicates, connects and works.

MOS will be celebrating its anniversary with events throughout the year. The events include all company parties, community events and volunteering along with bringing back some great customer events from years past.
